

# COSMIN-MIHAI MANU

## IT SOFTWARE DEVELOPER

### PERSONAL STATEMENT

As a highly experienced and passionate pioneer in technology, I am committed to deliver innovative and agile software solutions. My experience working with web services and technologies like C# .NET Core, Java, OOP, combined with my interest in social skills and communication, make me a valuable asset to any team.

I am dedicated to work in a daily collaboratively environment with team members to achieve successful outcomes and share new ideas.

With a desire to continuously improve, I am excited to explore new opportunities and expand my skills in the IT development industry.

### WORK EXPERIENCE

#### .NET&T-SQL Developer

*CTCE Piatra-Neamt SA | Dec 2023 - present*

- implementing an HR software web application for different clients working with ASP.NET Core 8.0 framework (using MVC pattern) and relational dbs as Microsoft SQL Server (T-SQL language);

#### .NET&React Developer

*Connections Consult | May 2023 - July 2023*

- Worked within a team at building from scratch a modern web application for a large company that produces non-food consumer goods;
- Contributed at implementing new features meeting the requirements from the product managers/owners, both for backend part in C# .Net and frontend part in React;
- Tested the new features using Postman, Swagger
- Utilized GitHub for code versioning and PRs;

#### Junior Java Developer

*Endava | July 2022 - April 2023*

- Contributed to the development of a web application that created digital tools for SMEs and enabled them to reconnect with banks
- Utilized expertise in Java, Spring Boot, and OOP
- Engaged in discussions with the Product Owner of the client, providing insights and making recommendations.
- Utilized Docker to containerize and simplify the deployment process, and Azure DevOps to manage the backlog and facilitate collaboration among team members

### CONTACT ME

(+40)733.209.589 | (+40)770.857.788

### SKILLS

- Software Development
- C# and .NET
- Java and Spring Boot
- SQL, PL/SQL, MySQL, APEX
- Azure DevOps
- REST Endpoints
- Postman
- GIT
- React, Angular
- Time Management
- Communication
- Adaptability

## Software Developer Internship

Deutsche Bank | July 2021 - Sept 2021

- Gained hands-on experience in developing software solutions using Java, Spring Boot and design patterns
- Developed and tested robust, scalable software solutions using REST APIs, Swagger, and Postman
- Utilized frontend technologies such as JavaScript, HTML, CSS, React and Angular to develop user-friendly interfaces
- Developed essential soft skills: effective communication, teamwork, and problem-solving, through participation in soft skills laboratories
- built an E-learning platform using Java Spring Boot, Angular, MySQL. Designed it through all layers like frontend, business logic and presented it to a wider audience of the company's developers and managers

## EDUCATION

Master's Degree - eBusiness at Cybernetics, Statistics and Computer Science ASE Bucharest (Oct 2023 - 2025)

- Master's program is after 6 PM working hours

Bachelor - Cybernetics, Statistics and Computer Science ASE Bucharest (2019 - 2022)

- built from zero a Sink Ships Game Console in Java 11+ where player has to sink 3 or more ships by guessing their location on a table grid.
- <https://github.com/CosminManu/SinkShipsGame>
- built a restaurant management system, a Java SE console application designed to streamline restaurant operations by managing orders, menus, and inventory. This project highlights my ability to implement complex business logic in an intuitive and efficient way.
- <https://github.com/CosminManu/restaurant-management-system>
- built a responsive web page copy of the Microsoft official web page using HTML5, CSS3 and Javascript
- <https://github.com/CosminManu/Microsoft-webpage-copy>
- built an Uber Clone mobile application using Java
- <https://github.com/CosminManu/UberClone>

## CERTIFICATIONS

- JVA-008 Development with Java® SE. Extended (Luxoft 2023)
- Oracle PL/SQL certification (2021)
- German language Goethe B1 (2019)

## PROJECTS

*\* Some of the projects are private, contact me and I will share them with you*

- Sink Ships Game: personal project where I developed a simple Sink Ships game made in Java11+
- Restaurant Management System: A comprehensive console application developed in Java SE for managing restaurant operations such as orders, menus, and inventory.
- Web page copy of the official Microsoft web page (HTML5, CSS3, Javascript)
- Uber Clone mobile app (Java)

## LANGUAGES

- English B2 level
- German Goethe Zertifikat B1 level
- French A2+ level

Driver's license Type B

## SOFT SKILLS

### 1. Time Management

Consistently demonstrate exceptional time management skills, effectively prioritizing tasks to meet deadlines, optimize productivity and achieve objectives.

### 2. Adaptability

Highly adaptable and quick to embrace new challenges and develop on multiple technology areas. Thrive in dynamic work settings, where the ability to adjust and respond positively to changing circumstances is essential. Proactively seek opportunities to learn and grow.

### 3. Communication

Possess strong verbal and written communication skills, enabling clear and concise interaction with team members, clients, and stakeholders. Open to give and receive feedback and to express the problems clearly in order to be solved.

### 4. Customer oriented

Always willing to help and bring a smile on every customer interaction, also committed to bring the best user experience for the customer in order to achieve the best results.

## VOLUNTEER

### Asociatia Studentilor Crestini Ortodocsi Romani (ASCOR)

2016 - 2019

- Participated in community service and youth engagement activities, enhancing communication and leadership abilities.

### Asociatia Casa Buna

May 2024

- I volunteered to help at the official inauguration of the new kindergarten "Gradinita Buna" near Bucharest;
- helped to set up the place, move the fence, mow the grass, remove the vine;
- socialized and made great friends
